DETAILED ACTION

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

The oath filed 05/10/2004 refers to the inventive entity in the first person, i.e. "I", "my" etc., whereas the inventorship comprises more than one inventor. The Oath should be corrected to refer to the plurality of inventors, i.e., "we", "our", etc.

Claim Objections

MPEP 1402 states, "A reissue application is filed to correct an error in the patent which was made without any deceptive intention, where, as a result of the error, the patent is deemed wholly or partly inoperative or invalid. An error in the patent arises out of an error in conduct which was made in the preparation and/or prosecution of the application which became the patent.

There must be at least one error in the patent to provide grounds for reissue of the patent. If there is no error in the patent, the patent will not be reissued. The present section provides a discussion of what may be considered an error in the patent upon which to base a reissue application."

Since the only allowable claim is original claim 1 from original patent **6304996** there are no errors in the patent to provide grounds for reissue of the patent.

Allowable Subject Matter

Claim 1 is allowed.
